

Wholly Foreign-Owned Hospital Pilot Promotion Conference In Shenzhen City

March 20, 2025 · Qianhai International Talent Hub

Invitation Letter

[Dear XXX Company:]

On September 7, 2024, the Ministry of Commerce of China, the National Health Commission of China, and the National Medical Products Administration issued the "Notice on Carrying Out Pilot Projects to Expand Openness in the Medical Field," allowing the establishment of wholly foreign-owned hospitals (excluding traditional Chinese medicine and excluding the acquisition of public hospitals) in Shenzhen and seven other cities and one province. To introduce foreign investment to promote high-quality development in Shenzhen's medical sector and better meet the healthcare needs of the public, Shenzhen will host a Wholly Foreign-Owned Hospital Pilot Promotion Conference on March 20, 2025, on the third floor of the Qianhai International Talent Hub. The conference will introduce national, Guangdong provincial, and Shenzhen municipal policies and guidelines for the pilot program of wholly foreign-owned hospitals, and will organize visits for companies and institutions to the Qianhai Cooperation Zone.

This promotion conference is hosted by the Public Hygiene and Health Commission of Shenzhen Municipality and the Investment Promotion Bureau of Shenzhen Municipality, and organized by the Shenzhen Qianhai Authority. With the theme "Bay Area Opportunities, Healthy Future," the conference will comprehensively showcase Shenzhen's economic vitality, industrial strength, and investment potential, making it an ideal city for global medical investment. We invite representatives from globally renowned medical institutions, pharmaceutical and medical device companies, insurance organizations, medical groups, and investors to gather in Shenzhen.

The Shenzhen Municipal Health Commission and the Shenzhen Investment Promotion Bureau sincerely invite your company to attend this event to discuss cooperation and build a healthy future together!

Sincerely,

Health Commission of Shenzhen Municipality
Investment Promotion Bureau of Shenzhen Municipality
